

MISSION

ENSURE an older adult Emergency Department experience through high quality resource optimization, community relationships, diversity of health professionals, respecting individual patient values that returns patients to their desired level of independence and function.

VISION

CREATE a comprehensive and age-friendly care model tailored to the older adult patient and their caregivers in the Emergency Department focusing on those at risk for cognitive dysfunction, unrecognized or pre-existing dementia, or challenged functional capacity.

VALUES

AGE-FRIENDLY, optimized independence, patient-valued with a sensitivity to diversity and caregiver support.

Enhancing Your Emergency Department Care
