Covered California Health Insurance Domestic Violence

Survivors of domestic violence may apply for health insurance through healthcare.gov at ANY TIME. They do not need to wait for Open Enrollment. They qualify for a Special Enrollment Period (SEP) because they are survivors of domestic violence.

1. Call the Call Center at 1-800-318-2596
2. Explain the situation by stating “I am a survivor of DV. I want a Special Enrollment to apply for health care.”
3. The Call Center will grant a SEP and then consumers will have 60 days to pick and enroll in a plan.
4. The application requires all members of the family to report their income in order get a complete picture of the household’s income; when a couple is married, both people are required to report their income. But survivors of domestic violence and abandoned spouses who are legally married but who do not live with their spouse and will file taxes separately are not required to count the spouse’s income towards their household income. This means that these individuals are able to qualify for financial help based on their own salary—making needed health insurance much more affordable to these victims.
5. In order to do this, survivors of domestic violence who meet the criteria must mark “not married” on their healthcare.gov application. This is the only way that the online application is able to process the applications. After they have completed the application, consumers will be able to see what financial help they are eligible for based only on their income

Domestic Violence – Mandated Reports

- The law “excludes from the reporting requirement those who provide strictly social or psychological services, rather than medical services. These services include social workers, chaplains and psychologists”
- Mandated reporting only pertains to an adult patient suffering from a physical injury known or reasonably suspected to be caused by domestic or intimate partner violence
- Please refer patients to Social Work if additional resources are needed or refer to SWPC SmartTexts in APeX
- In San Francisco, the report is filed with the SF Police Domestic Violence Unit, but does not initiate any police action
